

MISSION

Supplemental academic support for schools and districts

Lincoln Sheets Tutoring partners with schools to provide individualized, online tutoring that extends, rather than replaces, the work of teachers, counselors, and intervention teams.

Program overview

Partnerships deliver flexible tutoring capacity for academic intervention, advanced coursework, AP preparation, and SAT/ACT preparation. Students are matched with carefully selected tutors and scheduled online. Administrators receive monthly utilization reporting and optional Power BI Dashboard Options for oversight.

Benefits

- Flexible, online scheduling
- Qualified, carefully selected tutors
- Individualized instruction
- Referral coordination
- Monthly utilization reporting
- Optional Power BI Dashboard Options
- Quarterly partnership reviews
- Scalable from pilot to district-wide

Subjects

- Middle & high school mathematics
- College mathematics
- Statistics & probability
- Physics
- SAT & ACT preparation
- AP courses (math, English, history, economics, and more)
- College essay assistance

Subject availability varies by tutor and partnership.

Reporting

Partners receive monthly summaries covering hours delivered, students served, subject demand, and utilization. Power BI Dashboard Options and quarterly reviews can be included based on partnership structure.

How partnerships work

District identifies students → referral submitted → tutor matched → scheduling → tutoring begins → monthly reporting → quarterly review. Every agreement is customized to district goals, enrollment, and academic priorities. Program structure and investment are determined during consultation.
